

AMENDMENTS TO THE SPECIFICATION

Please AMEND the specification as follows:

On page 73, after line 38, please amend as follows:

Various disclosed embodiments also relate to an apparatus such as a computer for performing the disclosed operations. The computer may include one or more processors and one or more memories. Still further, various disclosed embodiments relate to machine-readable media on which are stored program instructions for performing operations on a computer or computer system. The computer readable medium can be any data storage device that can store data which can thereafter be read by a computer system. Examples of the computer readable medium include read-only memory, random-access memory, CD-ROMs, magnetic tape, and optical data storage devices.
